Fortend Tutorial Appendix

This is appendix adds notes to the frontend tutorial

Updated Google maps API integration. The tutorial indicates that the Maps API should be placed in "google_maps_api.xml"

Update: This is now deprecated. Instead, please follow the "Maps SDK for Android Quickstart" guide: https://developers.google.com/maps/documentation/android-sdk/start

Google Sign In. The tutorial uses startActivityForResult to open the sign in activity.

Update: startActivityForResult API is now deprecated. Instead, please use the new Activity Result APIs: https://developer.android.com/training/basics/intents/result
